ATI – Peer-reviewed research & open access journal, VOLUME 2, 2010

Thematic area:

Papers from applied physics, chemistry, biology, technology and engineering, electronics, science and education, and other non-economic and natural sciences domains. The papers should be directed to resolve practical issues and problems.

Particular topics might include, but not restricted to: Environment promoting innovations. Modernization of power, introduction and perfection resource saving technologies; Innovations in mechanical engineering and instrument making. Development hi-tech industries; Innovations in manufacture of materials, subjects of industrial and final consumption. Technologies in a manufacturing industry; Innovations in agriculture and agribusiness. Chemical technologies and biotechnologies for productivity and ecology; Innovative technologies in construction, civil and industrial transport systems; Nanotechnologies, microelectronics, information technologies, telecommunications; Innovations for health protection and improvements of the person, an environment; Innovations in education and a science.

Structure and format of papers:

Submission format can be downloaded at <http://www.pieb.cz/en/submission.html>

The volume of paper should be at least 10 pages, but not exceeding 15 pages of A4 format. It is a general recommendation and good papers could be accepted in size less than 10. Articles must be written on English. Papers should be printed in MS Word, Time New Roman font (size 12), with 1.5 interval. Tables and pictures must be handled with MS Word drawing tools and supported by source references. Literature references should be placed in the end of paper and represented in required form (see www.pieb.cz).

Papers should be provided by the following requisites:

- Name of paper; UDC codes; List of keywords
- Summary in the beginning (a maximum of 150 words).
- References in required form (see www.pieb.cz)
- At the end of paper author should precisely specify the following: first name and surname; scientific degree; country of citizenship; affiliated with a given author a research or other organization (company); e-mails (main and alternative); phones with codes (office and mobile); the convenient detailed post address, on which author wishes to receive the journal after printing.

Given publications should have research character and must be based on principles of scientific and a professional etiquette. The papers are subject for peer-review process by editorial and independent experts.

Publication fee:

Article processing fee is 150 Euro, due to pay only after accepting the paper by Editorial Board. The fee is not refundable and covers costs of editorial and peer-review procedures, costs of open access business model. The paper will be printed with ISSN 1804-1191 (Print) and placed online for open access. The fee paid does not guarantee actual publication in case the quality of article is found not sufficient by reviewers. In such case, publication in PIEB journal might be offered free of charge. The fee is also subject to guarantee the sending one printed copy via standard air mail to all author (s) of a published article. The undergone peer-reviewed process papers are published also on-line for free open access to maximize authors' value.

Paper submission deadline:

Electronic copies of paper must be sent to publications@pieb.cz and copy to info@barar.cz **no later than 15th of June, 2010.**
